

Mapping of Online Teacher Training (OTT) modules to EAQUALS Framework

The rationale behind mapping the **Online Teacher Training** (OTT) modules to the **EAQUALS Framework for Language Teacher Training and Development** stems from the need to use an internationally accepted teacher knowledge and competency mapping framework to understand, identify and measure these dimensions in teachers who have undergone training through the OTT modules.

Eaquals is an international member association (<u>www.eaquals.org</u>) and its main mission is to contribute to the enhancement of quality in language teaching and learning. In line with this mission Eaquals has designed the Framework which provides an overview of the key professional competences and skills needed by language teachers. The Framework can be accessed here: <u>www.eaquals.org/ourexpertise/teacher-development/the-eaquals-framework-for-teacher-training-anddevelopment/</u>

The modules are mapped to the section *Overview of language teacher competences across three phases of development* and encompass the three developmental phases of the Knowledge and Skills' descriptors so that once the modules are used by participants, they will be in a position to evaluate the efficacy of the training by measuring learner outcome and gauge the degree of change brought about thus. Participants will fill in a self-assessment checklist to get a feedback on Knowledge and Skills' uptake. The main areas and sub-areas described in Knowledge and Skills acquisition in the Eaquals Framework are listed below.

Planning Teaching and Learning	Teaching and Supporting Learning	Assessment of Learning	Language, Communication and Culture	The Teacher as Professional
 Learner needs and learning processes Curriculum and syllabus (the teaching and learning programme) Lesson aims and outcomes The lesson - tasks, activities and materials 	 Teaching methodology Resources/Materials Interacting with learners Lesson management Using digital media Monitoring learning Learner autonomy 	 Assessment and the curriculum Test types - selection, design and administration Impact of assessment on learning Assessment and learning processes 	 Using the target language effectively with learners Applying the principles of the Common European Framework for Reference Giving sound language models and guidance Handling relevant cultural issues as part of language learning Applying practical insights from linguistics and psycho-linguistics 	 Self-assessment and teacher autonomy Collaborative development Exploratory teaching Lesson observation Professional conduct

Building Blocks for Expository Writing

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules	
A. Planning Teaching & Learning			
Key Area 1: Learner needs & learning processes	Knowledge Identifying learning styles and needs and finding ways of making learners aware of them. (DP 3) Knowledge of various processes and procedures for finding out about learning needs and their usefulness in different teaching contexts. (DP 2)	Clear classification of different sub-genres of expository texts so that teacher can see how each serves different needs and purposes. Will develop skills in teachers to set relevant objectives and design procedures. (Slide: <i>Frameworks of</i> <i>expository texts, Types of expository texts,</i> <i>Components</i>) Demonstrated in <i>Video</i> and processes explained by expert.	
Key Area 3: Lesson aims & outcomes	 Knowledge Interdependence of learning outcomes, teaching contexts and individual learners. (DP 2) Knowledge of how target language works with different genres, domains and levels of formality. (DP 2 and DP 3) Skills: Analysing and selecting from wide range of language form and functions for a wide range and level of learner needs. (DP 2)	Example evident in teaching how to structure and populate paragraphs for learners at all levels. Example shown in how to create thesis statement and develop an argument in different domains, using appropriate structures.	
Key Area 4: Lesson tasks & activities	Knowledge The rationale and options for planning lesson stages in different logical sequences.	Demonstrated in video	
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules	
	B. Teaching & Supporting Learning		

Key Area 1: Teaching methodology	KnowledgeKnowledge of principles and rationalebehind selection of commonly usedteaching approaches, methods andtechniques. (DP 2)Role of cognitive and affective factors inthe learning process and thedevelopment of language competence.(DP 2)SkillsEngaging in interactive and productivecommunication.Setting up of a range of languagelearning activities /techniques andmonitoring them. (DP 2)	Methodology for maintaining balance between guided and scaffolded steps and learner autonomy, and learner-centred approach shown. (Slide: <i>Make learners</i> <i>notice the parts</i>) Cognitive factors addressed in teaching steps for thesis statement generation techniques, paragraph structuring processes shown. Slides: <i>How to present the thesis statement</i> onwards. Hands on practice through slides: <i>Review 1,</i> <i>Step 1: Identify the reader, Step 2: Create a</i> <i>thesis statement, Step 3: Make an outline</i> <i>along with a thesis statement - A graphic</i> <i>organizer for expository writing; Hands-on</i> <i>practice for learners; Using graphic</i> <i>organizers for frames, etc.</i>
Key Area 3: Interacting with learners	KnowledgeKnowledge of procedures for flexibleswitching from one type of activity toanother. (DP 2)Concepts and terminology relevant togiving explanations and use of questionsat a range of levels. (DP 3)SkillsSetting up and monitoring activities,giving clear and relevant instructions,setting up multi-level group work. (DP 2)and DP 3)	(Slides: Frameworks of expository texts, Types of expository texts, Components; Slides: Classroom activity to teach how to write topic sentences for expository writing) Ref.: Video, Slide: Classroom activity to teach how to write topic sentences for expository writing
Key Area 4: Lesson management	SkillsDelivering effective lessons for a wide range of levels. (DP 2)Diagnosing individual learner needs. (DP 2)Assessing, reacting and responding to learner needs at the spur of the moment. (DP 2)	All techniques shown in the module are scalable and extensible and can be adapted for different levels. Step by Step guidance of techniques makes this possible. (Slide: <i>Teaching learners how</i> <i>to conclude</i>)
Key Area 6: Monitoring learning	 Knowledge Uses and shows the impact of feedback and their sources. (DP 2) Reflection is a way to self –assess. Skills Advising colleagues on techniques for monitoring learning. (DP 3)	Needs analysis and reflection as pedagogy are built into the module. (Slide Step 1: <i>Identify the reader</i> , all the <i>Review slides</i> .) Different techniques in the module where monitoring is also embedded as part of the technique, can be shared with colleagues.
Key Area 6: Learner autonomy	Knowledge Fairly wide range of techniques for developing and maintaining learner autonomy. (DP 3) Skills	Slide: <i>Make learners notice the parts</i> helps build learner autonomy.

	Involving learners in decision making within the lesson. (DP 2)	Giving options, e.g., choosing how to begin an expository text. Slide: <i>Examples of leads</i> .			
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules			
	C. Assessment of Learning				
Key Area 1: Assessment and the curriculum	Knowledge Importance of learner's classroom performance in assessing learning needs. (DP 1) Skills Delivering feedback to learner in an appropriate manner. (DP 1)	Once teacher has knowledge of learner performance by making the students go through the teaching learning process, they can guide the learner on their present and future direction of progression. The processes shown in the module facilitate this.			
Key Area 3: Impact of assessment on learning	Skills Applying constructive and systematic approach to handling error. (DP 2)	Will be partially learned in a specific context where techniques are shown step by step and a teacher can give feedback on specific parts of the task, constructively. Slide: <i>Develop</i> <i>the point</i>			
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules			
	D. Language, Communication	and Culture			
Key Area 1: Using the target language effectively with learners	 Knowledge of ways in which communication difficulties can be overcome using various linguistic and interpersonal strategies. (DP 3) Skills Communicating at language level of learners. (DP 2 and DP 3) 	Real-time video of classroom interaction shows this. Multiple linguistic and cognitive strategies support to bridge communication gaps. (Slide: <i>Using graphic organizers for frames</i>) Exposure to level specific input and activity samples will give teachers competence in communicating with learners at the appropriate levels.			
Key Area 3: Giving sound language models and guidance	 Knowledge Likely areas of difficulty in learning and using the target language up to B2. Skills Give correct and well contextualized models and examples of usage. Providing easily understood and comprehensive guidance. (DP 2) 	Teachers, after doing the module will be able to pitch tasks and select material based on the proficiency level of learners. Examples shown in the module help a teacher see how to provide learners with right models. (Slide: <i>A sample conclusion</i>)			
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules			
	E. Teacher as Professio	onal			
Key area 1: Self-assessment and teacher autonomy	Knowledge of a broad range of self-development processes and strategies. (DP 2) of a range of tools, resources, and processes to enhance strengths and to address areas of development. (DP 2)	After doing this module, teacher will be able to carry out the different tools in a structured manner, repeatedly and across domains. (Slide: <i>Make learners notice the parts</i>)			
	Skills	Teacher will learn how to adapt, tweak, recycle, and use material interchangeably for different tasks and processes. (Slide:			

Identifying, selecting, recycling,	Understanding the reading-writing
incorporating and exploiting range of	integrated process)
tools, processes and resources (DP 2)	

Self-Checklist on a scale of 1-5

(1= Strongly disagree, 2 = Disagree, 3 = Neither agree nor disagree, 4 = Agree, 5 = Strongly agree)

- 1. I can identify learning needs in writing and design writing tasks accordingly.
- 2. I can analyse and select writing tasks based on my lesson aims.
- 3. I know concepts and terminology for giving explanations at a range of levels when teaching processes for expository writing.
- 4. I understand the rationale, options and stages for planning writing lessons based on lesson aims and learners' needs.
- 5. I can give clear and relevant instructions, set up multi-level group work, monitor when teaching writing.
- 6. I can use techniques for giving learner autonomy and decision-making power to learners during a writing lesson.
- 7. I can give positive and constructive feedback to learners at different stages of a writing lesson.
- 8. I can provide appropriate models and examples when teaching writing.

.....

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
	A. Planning Teaching & Learning	5
Key Area 1: Learner needs & learning processes	KnowledgeIdentifying learning styles and needs and finding ways of making learners aware of them. (DP 3)Knowledge of various processes and procedures for finding out about learning needs and their usefulness in different teaching contexts. (DP 2)Skills Determining and anticipating learners' 	Pedagogical input in the module makes teachers aware of strategies of reading that are being employed for reading different texts. (Slide: <i>Skills</i> <i>needed for reading</i>) Pedagogical input facilitates this. (Slide: <i>What strategies does a reader</i> <i>use to read?</i>) Teacher will be able to determine levels in different skills of reading with the help of the rubrics shown in the module and estimate learning need. (Slide: <i>Rubrics to asses a</i>
	Designing procedures to find out about learners' language learning needs in a range	reader)

Ways to Develop Effective Reading Skills

	of contexts and setting relevant learning objectives. (DP 3)	
Key Area 2: Curriculum & syllabus	Knowledge The way in which the curriculum and the TLPs relate to each other. (DP 2)	The pedagogy provided will help teachers set the learning objective, after having mapped them to curricular requirements. (Slides: <i>Skills needed for reading, What</i> <i>strategies does a reader use to</i> <i>read?; Some reading strategies</i>)
	Skills Implementing the school curriculum and TLPs taking learners' needs into account. (DP 2)	The different strategies guide the teacher in mapping learner needs to curriculum.
	Planning a logical sequence of lessons based on the TLP and learner needs. (DP 2)	Slide: Video that shows sequence of TLP
Key Area 3: Lesson aims & outcomes	Knowledge Knowledge of how target language works with different genres, domains and levels. (DP 2 and DP 3)	Module helps a teacher to identify learning outcomes and selecting reading texts and tasks accordingly.
	The grammar, vocabulary and pronunciation points and language skills to be taught during	The selection of teaching text and additional supports help grow this competence in teachers.
	a given course. (DP 1) Interdependence of Learning Outcomes, teaching contexts and individual learners. (DP 2)	Slide: Some reading strategies: Visualizing texts, Some reading strategies: Make prediction from the text, etc.
	Skills Analysing and selecting from a wide range of language forms and functions for a wide range and level of learner needs. (DP 2)	Teacher will be able to adapt and tweak the methods learned to suit different genres, levels and domains. Slides: <i>Some reading strategies:</i> <i>Make inferences,</i>
	Linking language skills development with learners' real-life needs. Organising activities that integrate the use of	Some reading strategies: Understanding the flow of logic by looking at signal words and phrases
	different language skills.	Slide Reciprocal Reading, The SQ3R method of reading
Key Area 4: Lesson tasks & activities	Knowledge Principles and techniques of materials with reference to various teaching contexts. (DP 3) The rationale and options for planning lesson stages in different logical sequences. (DP 2) A wide range of strategies for fostering learning opportunities to develop and sustain learner autonomy. (DP 3)	Pedagogy underpinning the entire module. Strategies discussed, and techniques shown throughout the module. Techniques shown in the module can be used generically, across disciplines.
	Basic techniques for materials design. (DP 2) Skills Selecting and designing teaching materials beyond the coursebook, using other language teaching materials and resources relevant to the learners' needs and learning styles. (DP 2)	Teacher will learn from the many examples given in the module on how to use the same techniques with other resources. Slide: <i>Some reading</i> <i>strategies: Reading and scanning for</i>

Eaquals Framework	Deciding on appropriate sequences of activities, timing and pace for lesson phases and activities. (DP 2) Identifying strengths and areas for further development. (DP 2) Devising activities to develop learner autonomy and study skills for use outside the classroom. Elicitation in the Classroom

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
A. Planning Teaching & Learning		
needs & learning processes	Knowledge The rationale for identifying learning needs and styles and finding ways of making learners aware of them (DP 1) and how they are likely to differ from learner to learner. (DP 2) Knowledge of various processes and	Explanation of what 'Elicitation' is, why it is necessary and how it is done for students at various levels of learning is explained. (Slides: Understanding the context, Meaning of elicitation, Implication of elicitation, Reasons for

	needs and their usefulness in different teaching contexts. (DP 2) Skills Determining and anticipating learners' language learning needs and learning styles at a range of levels, selecting appropriate ways of finding out about these. (DP 2) Basing lesson and course design and the selection of learning activities on learners' needs. (DP 2)	Demonstrated in <i>Video</i> , processes explained by expert, Slides: <i>Question</i> <i>Types</i> , <i>Guidelines for effective</i> <i>questioning</i> , <i>When to elicit</i> . <i>Can be learned through the various</i> <i>options for techniques shown</i> , (Slide: <i>Ways to elicit</i> and the details on each of the techniques)
Key Area 3: Lesson aims & outcomes	Knowledge of the grammar, vocabulary and pronunciation points and language skills, the basic components and functions of spoken and written communication and interaction (grammar, vocabulary, pronunciation, spelling, body language, etc.) (DP 1)	This is the basic premise on which the OTT modules are built. This knowledge is had from previous knowledge.
	Anticipating common areas of difficulty within a limited range of teaching contexts, and planning ways of overcoming these. (DP 1) Interdependence of learning outcomes, teaching contexts and individual learners. (DP 2) Skills Linking language skills development with learners' real-life needs. (DP 2) Differentiating learning objectives in the light of learners' needs. (DP 2)	Further strengthened through slides like Reasons for elicitation, Guidelines for effective questioning, When to elicit, etc.) Learner needs will be partially gauged through the slides, When to elicit, Pre- Teaching, What to pre-teach through elicitation? Review tasks help reflect on this aspect. Learning objectives of learners can be concretized when a teacher learns the following: How can we make eliciting words effective, Effective ways to elicit Using different strategies for students with different learning needs, Slide: Effective ways to elicit.
Key Area 4: Lesson tasks & activities	of learners' needs. (DP 2) Knowledge Some possible ways of organising lessons and varying activities through a limited range of practice activities, and interaction types relevant to the needs of learners (DP 1) and the cognitive demands of these types of activities (DP 2). Basic techniques for materials design (DP 2) The rationale and options for planning lesson stages in different logical sequences. (DP 2)	Techniques shown in slides like Using probes to elicit, Non-verbal elicitations, Using WH framework to elicit, Elicitation through Socratic Questioning offer knowledge in a variety of elicitation and interaction types. Many strategies have been shown step by step to guide teachers on how to design and use different TL materials. Specific techniques need specific processes and sequences. Some have been shown, e.g., Elicitation through Socratic Questioning Slide: Using WH framework to elicit

	r	<u>۱</u>
	 Skills Critically assessing, selecting and using approaches and strategies to enhance learning opportunities. (DP 3) Selecting and creating teaching resources based on authentic materials, adapting them to suit the learners' language level and needs. (DP 3) Selecting or developing a variety of teaching procedures, techniques and activities for use by other teachers. (DP 3) 	Techniques shown in slides like <i>See how</i> <i>it is done</i> and <i>Using probes to elicit,</i> <i>Using a picture</i> teach how to use different kinds of materials, including authentic material. Slide: <i>Techniques for eliciting</i> <i>vocabulary, Using probes to elicit,</i> etc. may be shared with other teachers teaching other subjects as well.
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
	B. Teaching & Supporting Lea	rning
Key Area 1: Teaching	-	Concepts and meta-language needed are
methodology	Concepts and meta-language needed for handling simple explanations and answering basic language questions at lower levels. (DP 1)	demonstrated for levels ranging from lower to higher levels, e.g., Slides: <i>How</i> <i>can we make eliciting words effective?</i> , <i>Effective ways to elicit.</i>
	Knowledge of principles and rationale behind selection of commonly used teaching approaches. (DP 2)	Methodology for maintaining balance between guided and scaffolded steps and learner autonomy, and learner–centred approach shown. (Slides: <i>How to extend</i> <i>the probe, Techniques for eliciting</i> <i>vocabulary</i>)
		Different ways to elicit are shown so that a learner's processing and productive skills as well as capability to interact are enhanced. (Slide: <i>How to extend the</i> <i>probe</i>)
	Skills Using basic teaching techniques for developing receptive skills and encouraging productive and interactive communication (DP 1)	The various techniques that are shown offer the teacher a range of strategies to choose from, depending on the level of the learners. (Slide: <i>Techniques for</i> <i>eliciting vocabulary</i>)
	Using classroom language appropriate to the level of the learners. (DP 1)	Exposure through video and expert narrative, strategies for classroom
	Effectively using different teaching/learning techniques for the development of receptive skills and engaging in productive and interactive communication. (DP 2)	interaction, e.g., Slides: <i>Strategies for</i> <i>thinking-aloud type of elicitation, KWL,</i> <i>Elicitation strategies during pre-</i> <i>teaching, etc.</i>
	Using a range of core techniques to present and promote practice and support learning of the target language, e.g., vocabulary. (DP 1)	Basic techniques for supporting the learning of vocabulary, e.g., <i>Techniques for eliciting vocabulary</i> .
	Setting up of range of language learning activities /techniques and monitoring them. (DP2)	

Key Area 2: Resources and materials	Knowledge Creating simple learning materials in line with learners' interests and needs to complement other resources. (DP1)	Slides: See how it is done, using a picture, non-verbal elicitations
	Skills Selecting, adapting and designing teaching/learning materials for a range of teaching situations to optimise learning outcomes (DP2)	Slide: <i>Elicitation through Socratic</i> <i>Questioning</i>
Key Area 3: Interacting with learners	Knowledge The principles and procedures for effective management of a broad range of interaction modes for optimising learning, including the flexible switching from one type of activity to another. (DP 2) Concepts and terminology relevant to giving explanations and answering language and use questions at a fairly wide range of levels. (DP	(Various ways of querying to teach how to interact with learners through elicitation, e.g., Slides: Using WH framework to elicit, Elicitation through Socratic Questioning, Video, with SME explaining concepts and terminology. The entire module
	 2) Skills Efficiently setting up and monitoring a broad range of classroom language learning activities, flexibly alternating between whole-class and pair, group, and individual work, to optimise learning outcomes. (DP 2) Helping learners to activate their existing learning strategies to prepare for and carry out 	shows various ways to ask questions and seek responses, e.g., the funnel questioning technique. Setting up the class for Socratic Questioning or setting up question probes will help teachers build the skill of exploring different interactional patterns. Slide: <i>KWL strategy for elicitation</i>
Key Area 4: Lesson management	tasks. (DP 2) Skills Organising longer teaching and learning sequences, building in variety, improvisation as a means of sustaining learner engagement and motivation (DP 2)	Techniques showing how to use the WH funnel or Socratic frameworks help keep the learner engaged and motivated for long periods of time.
Key Area 6: Monitoring learning	Knowledge Uses the impact of Feedback and their sources. (DP 2) The role of errors in the development of learners' language proficiency and in language learning. (DP 2)	Using learner response to generate further elicitation is a technique that is shown through structured steps. (Slide: Step 1: <i>Strategies for thinking-aloud type of</i> <i>elicitation</i> While teaching some of the strategies, the teacher will learn how to turn the errors of the learners into an advantage and use them to elicit further, e.g., deeper probes.
	Skills Giving feedback that is both useful and encouraging, helping learners to identify progress in learning and ways of seeking further practical support. (DP2)	Ways to lead the response feedback chain is demonstrated throughout the module.
Key Area 6: Learner autonomy	Knowledge	Slide: <i>KWL strategy for elicitation</i> helps build learner autonomy.

Eaquals Framework	Fairly wide range of techniques for developing and maintaining learner autonomy. (DP 3) Eaquals Descriptors on 3 Levels	Examples from OTT modules
	C. Assessment of Learning	
Key Area 1: Assessment and the curriculum	 Knowledge Importance of learner's classroom performance in assessing learning needs. (DP 1) Skills Delivering feedback to learner in an appropriate manner. (L1) 	Once teacher has knowledge of learner through the elicitation process, they can guide the learner on their present and future direction of progression. The processes shown in the module facilitate this.
Key Area 3: Impact of assessment on learning	Skills Delivering feedback to the learner and helping the learner to use this in the further planning and development of their learning. (DP 2) Applying constructive and systematic	Elicitation processes shown also embed processes for giving feedback and building on learning gaps. E.g., slides on <i>How to extend the probe</i> .
	approach to handling error. (DP 2)	
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
	D. Language, Communication and	
Key Area 1: Using the target language effectively with learners	 Knowledge of ways in which communication difficulties can be overcome using various linguistic and interpersonal strategies. (DP 3) Skills Communicating at language level of learners (DP 2 and DP 3) 	Real time video of classroom interaction shows this. Multiple linguistic and cognitive strategies support to bridge communication gaps. (Slides: Using probes to elicit, Techniques for eliciting vocabulary, Ways to elicit) Exposure to level specific elicitation will give teachers competence in communicating with learners at the appropriate levels.
Key Area 3: Giving sound language models and guidance	 Knowledge Likely areas of difficulty in learning and using the target language up to B2. Skills Give correct and well contextualized models and examples of usage. Providing easily understood and comprehensive guidance. (DP 2) 	Teachers, after doing the module will be able to pitch questioning based on the cognitive level of learners. Examples shown in the module help a teacher see how to provide learners with right models. (Slide: <i>How to elicit using</i> <i>probes</i>)
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
E. Teacher as Professional		
Key Area 1: Self-assessment and teacher autonomy	Knowledge Of a broad range of self-development processe and strategies. (DP 2)	After doing this module, teachers will be able to carry out the different tools and strategies in a structured manner, repeatedly, and across domains. (Slide: <i>Elicitation through Socratic Questioning</i>)

Of a range of tools, resources, and processes to enhance strengths and to address areas of development. (DP 2)Skills Identifying, selecting, recycling, incorporating and exploiting range of tools, processes and resources. (DP 2)	Teacher will learn how to adapt, tweak, and recycle, and use material interchangeably for different tasks and processes. (Slide: <i>Using WH framework to</i> <i>elicit</i>)
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Self-Checklist on a scale of 1-5

(1= Strongly disagree, 2 = Disagree, 3 = Neither agree nor disagree, 4 = Agree, 5 = Strongly agree)

- 1. I have the knowledge of learner needs of elicitation at a range of levels.
- 2. I have the knowledge of appropriate ways of finding out about knowledge-gaps through different elicitation processes.
- 3. I have knowledge of closed and open-ended questions and can design them for purposes of elicitation.
- 4. I am able to identify when and what kind of elicitation is required.
- 5. I can critically assess and select type of elicitation to assess learner understanding.
- 6. I can use the various stages of elicitation for purposes of comprehension check and deep probing.

.....

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules		
	A. Planning Teaching & Learning			
Key Area 1: Learner needs & learning processes	 Knowledge of the rationale for identifying learning needs and styles and finding ways of making learners aware of them (DP1) and how they are likely to differ from learner to learner (DP2). Knowledge of various processes and procedures for finding out about learning needs and their usefulness in different teaching contexts. (DP 2) Skills Designing procedures to find out 	Explanation of what 'critical listening' is, why it is necessary and how it is done for students at various levels of learning is explained. Differences with active listening explained with examples. 	needs in a range of contexts and setting relevant learning objectives. (DP 3) Basing lesson and course design and the selection of learning activities on learners' needs. (DP 2)	activities used in various stages of Critical Listening. Slides: Strategies to check for attributes of critical listening, Some ideas for critical listening activities for young learners, Frameworks: Moving from simple listening to critical listening
Key Area 2: Curriculum & syllabus	Knowledge The principles and rationale behind the school curriculum and syllabuses, and the way these relate to the needs of learners. (DP 2) The way in which the curriculum and the TLPs relate to each other. (DP 2) Skills Implementing the school curriculum and TLPs taking learners' needs into account. (DP 1)	Slides: What is Critical Listening, Responsibilities in critical listening, Things to learn from critical listening, How critical thinking is linked with critical listening Slides: Applying the framework to a poem, Method used in teaching traditional listening task
Key Area 3: Lesson aims & outcomes	 Knowledge of language skills to be taught during a given course. (DP 1) The interdependence of learning outcomes, the teaching context and individual learners (DP 2) Common areas of difficulty within a limited range of teaching contexts, and ways of overcoming them (DP 1) Successfully balancing objectives that relate to language systems, language skills, and language use. (DP 2) Interdependence of learning outcomes, teaching contexts and individual learners. (DP 2) Analysing and developing plans for teaching all main formal and functional aspects of the target language and communication across all levels. (DP 3) 	 Ways to develop different kinds of listening skills have been discussed and shown. Knowledge about critical listening as different from active listening is explained. Exposure to context of different kinds of critical listening and the rationale behind the various objectives and their outcomes are presented throughout the module. Challenges addressed in slide: <i>Pitfalls to watch out for in critical listening</i>. Objectives of specific target objectives discussed and shown with examples. <i>Slides: How to uncover assumptions, How to separate facts and opinions</i> <i>Review</i> tasks help reflect on this aspect. Throughout the module, teachers will learn how to transfer their knowledge on critical listening to functional aspects of the language and communication. The knowledge and skills learned
	Skills	here may be used for real-world requirements. Slides: <i>How to be open</i> <i>to new ideas, How to rely on reason</i>

		-
	Linking language skills' development with learners' real-life needs (DP 2)	and common sense, How to relate ideas, etc.
	Organising activities that integrate the use of different language skills. (DP 2)	In this module teachers learn how to organize activities that help develop critical listening skills.
	Matching thematic content and topics of lessons with linguistic aims. (DP 2)	The thematic content in this module becomes secondary to the primary interest which is developing different kinds of critical listening. Slides: <i>Frameworks: Moving from simple</i> <i>listening to critical listening -</i> <i>Probing reasons and evidence</i>
Key Area 4: Lesson tasks &	Knowledge	Techniques shown in slides:
activities	Some possible ways of organising lessons and varying activities through a limited range of practice activities and interaction types relevant to the needs of learners (DP 1) and the cognitive demands of these types of activities (DP 2).	Framework slides, Critical listening with narratives for young learners, Strategies to check for attributes of critical listening, etc., offer knowledge in a variety of critical listening strategies.
	Basic techniques for materials design. (DP 2) Rationale and options for planning	Many strategies have been shown step by step to guide teachers on how to design and use different TL materials.
	lesson stages in different logical sequences. (DP 2)	Specific techniques need specific processes and sequences. Some have been shown, e.g., <i>Frameworks:</i> <i>Moving from simple listening to</i> <i>critical listening - Probing</i> <i>assumptions, Frameworks: Moving</i> <i>from simple listening to critical</i> <i>listening - Probing viewpoint and</i> <i>perspectives</i>
	Skills Critically assessing, selecting and using approaches and strategies to enhance learning opportunities. (DP 3)	Slides: <i>Different Framework slides</i> Techniques shown in the above- mentioned slides help teach how to use different kinds of material, including authentic material for critical thinking and listening.
	Selecting and creating teaching resources based on authentic materials, adapting them to suit the learners' language level and needs. (DP 3)	Slide: All techniques learned in the <i>Framework</i> slides may be shared with other teachers teaching other subjects as well.
	Selecting or developing a variety of teaching procedures, techniques and activities for use by other teachers. (DP 3)	Techniques shown here may be used on learners to make them autonomous critical thinkers and listeners.
	Incorporating into learning activities a wide range of techniques to support the development of learner autonomy and study skills. (DP 3)	

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
В.	Teaching & Supporting Learn	ning
Key Area 1: Teaching methodology	 Knowledge Concepts and meta-language needed for handling simple explanations and answering basic language questions at lower levels. (DP 1) Knowledge of principles and rationale behind selection of commonly used teaching approaches. (DP 2) Skills Using basic teaching techniques for developing receptive skills and encouraging productive and interactive communication. (DP 1) Using classroom language appropriate to the level of the learners. (DP 1) 	Concepts and meta-language needed are demonstrated for levels ranging from lower to higher levels, e.g., Slide: <i>What is the difference between</i> <i>active listening and critical</i> <i>listening?</i> Methodology for teaching different ways to listen critically, evoking higher order thinking shown in slides like <i>Things to learn from critical</i> <i>listening, Using debates for Critical</i> <i>Listening.</i> The various techniques that are shown offer the teacher a range of strategies to choose from, depending on the level of the learners. Slide: <i>Techniques for eliciting vocabulary</i> Input and language is made age- appropriate, e.g., Slides: <i>Some ideas for critical listening</i> <i>activities for young learners, Cues to</i> <i>identify the critical message.</i> The many options provided by way of activities allow for evaluation of appropriacy and efficacy of activities.
Key rea 2: Resources and materials	Knowledge Creating simple learning materials in line with learners' interests and needs to complement other resources. (DP 1)	Slide: See how it is done, using a picture, non-verbal elicitations Slides: <i>How to relate ideas, How to do note taking, How to uncover assumptions</i> , etc.
	Skills Selecting, adapting and designing teaching/learning materials for a range of teaching situations to optimise learning outcomes. (DP 2)	
Key Area 3: Interacting with learners	Knowledge Concepts and meta-language relevant to handling simple explanations and answering basic language questions at two or three levels. (DP 1)	Various ways of querying teach how to interact with learners through elicitation, e.g., Slides: Six ways to improve your critical listening, Frameworks: Moving from simple listening to critical listening, How to separate facts and opinions
	Concepts and terminology relevant to giving explanations and use questions	Video, with SME explaining concepts and terminology. The entire

OXFORD UNIVERSITY PRESS

	at a fairly wide range of levels. (DP 2)	module explains various terms related to critical listening.
	Skills Efficiently setting up and monitoring a broad range of classroom language learning activities, flexibly alternating between whole-class and pair, group, and individual work, to optimise learning outcomes. (DP 2) Giving clear, relevant instructions for a variety of activity types, including for efficient changes of activity or interaction format. (DP 2)	When setting up the class to give hands-on practice on the <i>Frameworks</i> for moving from simple listening to critical listening: Probing reasons and evidence, Probing viewpoint and perspectives, Probing assumptions, the teacher will be able to try out various interaction patterns. Slide: <i>KWL strategy for elicitation</i>
Key Area 4: Lesson management	Skills Creating a positive and constructive classroom atmosphere. (DP 1) Organising longer teaching and learning sequences, building in variety, improvisation as a means of sustaining learner engagement and motivation. (DP 2)	Activities like the jigsaw and dictogloss, both of which require longer T/L sequences.
Key Area 6: Monitoring learning	Skill Identifying learners' errors and using a basic range of techniques to correct them at a limited range of levels. (DP 1)	Some of the techniques shown in the module help to insert deep probes to develop critical listening. Errors made here will get identified because of the step-by-step treatment of the process and get addressed.
Key Area 7: Learner autonomy	Knowledge Some techniques for developing learner autonomy. (DP 1)	Slide: <i>How to do note taking</i> helps build learner autonomy.
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
	C. Assessment of Learning	
Key Area 1: Assessment and the curriculum	KnowledgeImportance of learner's classroomperformance in assessing learningneeds. (DP 1)SkillDelivering feedback to learner in anappropriate manner. (DP 1)	Once teacher has knowledge of learner while teaching processes of critical listening, they can guide the learner on remediation, learning gaps or progression. The processes shown in the module facilitate this.
Key Area 3: Impact of assessment on learning	Skill Delivering feedback to the learner and helping the learner to use this in	Listening processes shown here also embed processes for giving feedback and building on learning gaps. Slides
	the further planning and development of their learning. (DP 2) Applying constructive and systematic approach to handling error. (DP 2)	on Framework: Probing Implications & Consequences
Eaquals Framework	the further planning and development of their learning. (DP 2) Applying constructive and systematic	
Eaquals Framework	the further planning and development of their learning. (DP 2)Applying constructive and systematic approach to handling error. (DP 2)	& Consequences Examples from OTT modules

Key Area 1: Using the target	Knowledge	Teachers will learn to identify aspects
language effectively with learners	The causes of communication difficulties of learners with low and intermediate levels of proficiency. (DP 1) Skills Communicating at language level of learners. (DP 2 and DP 3)	of critical listening that learners find difficult to process and how they hamper proficiency, and address the gap using some of the strategies shown in this module. Exposure to level specific design and implementation of critical listening will give teachers competence in using these strategies with learners at the appropriate levels.
Key Area 3: Giving sound language models and guidance	 Knowledge Likely areas of difficulty in learning and using the target language up to B2. Skills Give correct and well contextualized models and examples of usage. Providing easily understood and comprehensive guidance. (DP 2) 	Teachers, after doing the module will be able to offer critical listening input based on the cognitive level of learners. Examples shown in the module help a teacher see how to provide learners with right models. Slide: <i>Six ways to</i> <i>improve your critical listening</i>
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT modules
	E. Teacher as Professional	
Key Area 1: Self-assessment and teacher autonomy	KnowledgeOf a broad range of self-developmentprocesses and strategies. (DP 2)Of a range of tools, resources, andprocesses to enhance strengths and toaddress areas of development. (DP 2)SkillsIdentifying, selecting, recycling,incorporating and exploiting range of	After doing this module, teacher will be able to carry out the different tools and strategies in a structured manner, repeatedly, and across domains. (Slide: <i>How to relate ideas, How to rely on reason and common sense,</i> <i>How to uncover assumptions,</i> etc.) Teacher will learn how to adapt, tweak, and recycle, and use material interchangeably for different tasks and processes.

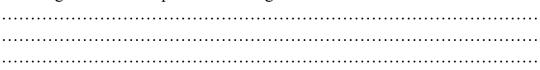

Self-Checklist on a scale of 1-5 (1= Strongly disagree, 2 = Disagree, 3 = Neither agree nor disagree, 4 = Agree, 5 = Strongly agree)

- 1. I understand the need to develop the skill of critical listening.
- 2. I know the principles and rationale behind selection of commonly used teaching approaches for developing critical listening.
- 3. I know different kinds of critical listening and their uses.
- 4. I can link development of critical listening with learners' real-life needs.

- 5. I can identify the rationale and use options for planning lesson stages in a critical listening lesson.
- 6. I can select, adapt and design teaching/learning materials for a range of critical listening activities to optimise learning outcomes.

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
A. Planning Teaching and Learning		
Key Area 1: Learner needs & learning processes	Knowledge The main areas where learning needs and learning styles are likely to differ from learner to learner. (DP 2) Knowledge of the principles behind various procedures and processes to identify learning needs, and how they relate to differing teaching contexts. (DP 3)	Clear classification of different kinds of speech acts so that teacher can see how each serves different needs and purposes. Will develop skills in teachers to set relevant objectives and design procedures. (Slides: <i>Factors to</i> <i>consider when planning speaking</i> <i>lesson, Strategies to teach</i> <i>speaking, 3 kinds of speaking</i> <i>acts.</i>)
	Skills Designing procedures to find out about learners' language learning needs in a range of contexts and setting relevant learning objectives. (DP 3) Basing lesson and course design and the selection of learning activities on learners' needs (DP 2)	Demonstrated in <i>Video</i> and processes explained by expert; different speaking activities and processes to teach them; how to make selection of activities, based on objectives.
Key Area 3: Lesson aims & outcomes	Knowledge The roles of grammar, vocabulary and pronunciation in spoken communication	E.g., evident in sections on 3 kinds of speaking acts; Speech as interaction, transaction, performance.
	A wide range of aspects of communication and language: transaction versus interaction; speech versus writing (DP 2) The interdependence of learning outcomes, the teaching context and individual learners (DP 2)	E.g., foundation for concept of this inter-dependence discussed in Slides: <i>What oral production</i> <i>involves, Factors to consider</i> <i>when planning speaking lesson,</i> <i>Strategies to teach speaking:</i> <i>Giving options/Giving feedback.</i>
	Skills Analysing and selecting a wide range of language functions, forms and features of communication relevant to lesson objectives in the TLP for a wide range of level and learner needs. (DP 2)	All the examples which show speech as social interaction, transaction and performance will develop these skills.

	E. Teacher as Professional	
Key Area 1: Self-assessment and teacher autonomy		After doing this module, teachers will be able to carry out the different tools in a structured manner, repeatedly and across domains. (Slides: <i>Types of</i> <i>speaking activities</i>)

Self-Checklist

(1 = Strongly disagree, 2 = Disagree, 3 = Neither agree nor disagree, 4 = Agree, 5 = Strongly agree)

- 1. I can identify learning needs in speaking tasks.
- 2. I know the basic concepts that inform the rationale as to why I choose particular speaking tasks.
- 3. I understand the rationale, options and stages for planning speaking lessons, based on lesson aims and learners' needs
- 4. I can decide when to choose structured, semi-controlled or communicative speaking tasks.
- 5. I can give clear and relevant instructions and set up pair or group work for a speaking activity.

- 6. I can give clear and relevant instructions for a speaking activity.
- 7. I can give positive and constructive feedback to learners at different stages of a speaking lesson.
- 8. I can provide appropriate models and examples when teaching speaking.

.

Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
	A. Planning Teaching & Lean	rning
Key Area 1: Learner needs & learning processes	Knowledge The rationale for identifying learning needs and styles and finding ways of making learners aware of them. (DP 1) Knowledge of various processes and procedures for finding out about learning needs and their usefulness in different teaching contexts. (DP 2)	Explanation of rationale and essential terminology and difference between phonics, phonemic awareness and phonetics. (Slide: <i>Why develop phonemic and</i> <i>phonological awareness?;</i> <i>Phonological awareness, Phonics,</i> <i>Phonemic awareness)</i>
	 Skill Determining and anticipating learners' language learning needs and learning styles at a range of levels, selecting appropriate ways of finding out about these. (DP 2) Basing lesson and course design and the selection of learning activities on learners' needs (DP2) 	Demonstrated in <i>Video</i> , processes explained by expert, slides explaining how sounds may be taught to learners, e.g., <i>Identification</i> of position of sound, Activities for minimal pairs. Can be learned through the various options for techniques shown, (Slides: Activities for sound differentiation, Activities for teaching rhyme, Activities using minimal pairs)
Key Area 2: Curriculum & syllabus		· · · · · · · · · · · · · · · · · · ·
Key Area 3: Lesson aims & outcomes	Knowledge Pronunciation points and language skills to be taught during a given course (DP 1) Basic components and functions of spoken and written communication and interaction (grammar, vocabulary, pronunciation, spelling, body language, etc.) (DP 1)	Shared through discussion on phonemic awareness, phonological awareness, phonics, and why all of these should be taught. Strengthened through slides like <i>Activities to develop phonemic</i> <i>awareness, Basic phonics, How we</i> <i>produce the sounds, Basic rules you</i> <i>can teach students.</i>
	Common areas of difficulty within a limited range of teaching contexts, and ways of overcoming them. (DP 1) © Oxford University Press	Learner needs will be partially gauged through the slides, <i>How we</i>

Phonemic Awareness and Teaching Phonics

Key Area 4: Lesson tasks & activities	Interdependence of learning outcomes, teaching contexts and individual learners (DP 2) Skills Linking language skills' development with learners' real-life needs (DP 2) Differentiating learning objectives in the light of learners' needs (DP 3) Knowledge Some possible ways of organising lessons and varying activities through a limited range of practice activities, and interaction	 produce the sounds, Identification of position of sound, etc. Review tasks help to reflect on these aspects. Learning objectives of learners can be concretized when a teacher learns the following: Strategies for ear sensitization & training. Using different strategies for students with different learning needs. Slides: Strategies for ear sensitization & training, Sensitizing students towards the syllable. Techniques shown in slides like Teaching the syllable, Strategies for ear sensitization & training,
	types relevant to the needs of learners (DP 1), and the cognitive demands of these types of activities (DP 2). Basic techniques for materials design (DP2)	Sensitizing students towards the syllable offer knowledge in a variety of ways to sensitize the students. Many strategies have been shown step by step to guide teachers on ear
	Rationale and options for planning lesson stages in different logical sequences (DP 2)	training. Specific techniques need specific processes and sequences. Some have been shown, e.g., <i>Strategies to teach</i> <i>syllables</i> .
	Skills Deciding on appropriate sequences of activities, timing and pace for lesson phases and activities, matching these to learners' progress and needs. (DP 2)	Slide: <i>Strategies to teach syllables</i> Techniques shown in slides like <i>How</i> <i>we produce the sounds, Basic Rules</i> <i>you can teach students,</i> demonstrate ways one can differentiate between sounds.
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
	B. Teaching & Supporting Lea	urning
Key Area 1: Teaching methodology	Knowledge Concepts and meta-language needed for handling simple explanations and answering basic language questions at lower levels. (DP 1)	Concepts and meta-language needed are demonstrated in the initial slides on sound production. E.g., Slides: <i>Phonemic Awareness: Focal Areas,</i> <i>Ground check; Basics of phonics</i>
	The notions of 'reception', 'production' and 'interaction' as key dimensions of language skills' development. (DP 1)	Slide: <i>How we produce the sounds</i>
	Knowledge of principles and rationale behind selection of commonly used teaching approaches. (DP 2)	Methodology for training learners in sound identification, differentiation and production (Slide: <i>Identification of position of</i> <i>sound</i>)
L	Oxford University Press	•

	Skills Using a range of core techniques to present and promote practice, and support learning of the target language (pronunciation). (DP 1)	The various techniques that are shown offer the teacher a range of strategies to choose from, depending on the level of the learners. Slide: <i>Identification of position of sound</i>
	Using basic teaching techniques for developing receptive skills and encouraging productive and interactive communication (DP 1)	Exposure through Video and expert's narrative, strategies for classroom interaction, e.g., Slides: Activities for minimal pairs, Activities for sound differentiation, Activities for teaching rhymes, etc.
	Effectively using different teaching/learning techniques for the development of receptive skills (DP 2)	Basic techniques for identifying and producing, e.g., <i>Activities to develop phonemic awareness</i> .
	Using a broad range of teaching approaches and techniques effectively and flexibly to fully develop receptive and productive skills. (DP 3)	Demonstration through classroom techniques - Slide: <i>Reinforce with practice drill</i> <i>and application</i>
Key Area 2: Resources and materials	Knowledge The main kinds of learning resources and ways they can be used for a limited range (DP 1)	Slide: Let students imbibe the rules, Teach like this Reinforce with practice drill and application
	Skills Selecting, adapting and designing teaching/learning materials for a range of teaching situations to optimise learning outcomes (DP 2)	Slide: Strategies for ear sensitization & training
Key Area 3: Interacting with learners	Knowledge Basic principles and procedures for managing teacher-class interaction - whole class teaching, group work, pair work or individual activities (DP 1)	Various ways of querying learners, teaching how to interact with learners, strategies to teach syllables, e.g., <i>Teach like this</i>
		(Slides: <i>Video, with SME explaining concepts and terminology.</i>) The entire module shows various ways to identify sounds and syllables, ways to produce 's' vowels, consonants, diagraphs and blends.
		Strategies for ear sensitization & training demonstrate how to teach these to learners.
	Skills Efficiently setting up and monitoring a broad range of classroom language learning activities, flexibly alternating between whole-class and pair, group, and individual work, to optimise learning outcomes. (DP 2)	
Key Area 4: Lesson management	Skills Building in variety, improvisation as a means of sustaining learner engagement and motivation (DP 2)	Teacher will learn this from the wide range of strategies that have been shown throughout the module. E.g., Slide: <i>Strategies for ear sensitization</i> & <i>training</i> .

	Assessing, reacting and responding to learner needs on the spur of the moment. (DP 2)	Teacher's own ear sensitivity will develop once this module is completed, so that s/he can identify errors in learners and give appropriate feedback.
Key Area 6: Monitoring learning	Knowledge Impact of specific cultural, social and learning contexts on language learning and teaching (DP 2)	Once the teacher gets to know how the sounds are produced (Slide: <i>How</i> <i>we produce the sounds</i>) s/he will be able to identify mother tongue influences and neutralize them.
	Role of errors in the development of learners' language proficiency and in language learning (DP 2)	While teaching some of the strategies, the teacher will learn how to turn the errors of the learner into an advantage and use them to improve their pronunciation.
	Skills Giving feedback that is both useful and encouraging, helping learners to identify progress in learning and ways of seeking further practical support. (DP 2)	Strategies used throughout the module to make learners sensitive to sounds and stress help in developing this skill in teachers.
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
	C. Assessment of Learnin	g
Key Area 1: Assessment and the curriculum	Knowledge Importance of learner's classroom performance in assessing learning needs (DP 1)	Once teacher has knowledge of learner's difficulties in pronunciation, s/he can guide the learner on their progression. The processes shown in the module facilitates this.
Key Area 3: Impact of assessment on learning	Skills Delivering feedback to learners in an appropriate manner (L1) Delivering feedback to the learner and helping the learner to use this in the further planning and development of their learning. (DP 2) Applying constructive and systematic approach to handling error. (DP 2)	Teacher will learn to map the errors to some of the fundamental rules of English pronunciation and give the necessary feedback. E.g., slides on <i>How we produce the sounds</i> .
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
	D. Language, Communication and	d Culture
Key Area 1: Using the target language effectively with learners	Knowledge of ways in which communication difficulties can be overcome using various linguistic and interpersonal strategies. (DP 3)	Video of Subject Matter Expert and the pedagogy relating to English pronunciation will provide a firm base for the teacher and this will help him/her discern correct strategy to use for individual learners.
	Skills Communicating at language level of learners (DP 2 and DP 3)	

Key Area 3: Giving	Knowledge	
sound language models and guidance	Likely areas of difficulty in learning and using the target language up to B2 (DP 2)	Teachers, after doing the module will be able to provide the necessary support and opportunities for the learners.
	Skills Gives correct and well contextualized models and examples of usage. Provides easily understood and comprehensive guidance. (DP2)	Examples shown in the module help a teacher see how to provide learners with right models. Slide: <i>How to</i> <i>pronounce the vowels and</i> <i>consonant, get the syllables correct.</i>
Eaquals Framework	Eaquals Descriptors on 3 Levels	Examples from OTT Modules
	E. Teacher as Professiona	1
Key area 1: Self-assessment and teacher autonomy	Knowledge Of a broad range of self-development processes and strategies (DP 2) Of a range of tools, resources, and processes to enhance strengths and to address areas of development (DP 2)	After doing this module, teachers will be able to carry out the different tools and strategies as and when needed, based on individual learner needs.

Self-Checklist

Teacher

(1 = Strongly disagree, 2 = Disagree, 3 = Neither agree nor disagree, 4 = Agree, 5 = Strongly agree)

- 9. I can identify learning needs in speaking tasks.
- 10. I know the basic concepts that inform the rationale as to why I choose particular speaking tasks.
- 11. I understand the rationale, options and stages for planning speaking lessons, based on lesson aims and learners' needs
- 12. I can decide when to choose structured, semi-controlled or communicative speaking tasks.
- 13. I can give clear and relevant instructions and set up pair or group work for a speaking activity.
- 14. I can give clear and relevant instructions for a speaking activity.
- 15. I can give positive and constructive feedback to learners at different stages of a speaking lesson.
- 16. I can provide appropriate models and examples when teaching speaking.
